SUMMARY

Motivated BCA (AI & Data Science) student with knowledge of Python, C programming, basic Data Structures & Algorithms, HTML, and CSS. Familiar with Python libraries, problem-solving, and basic web development. Skilled in MS Office tools and eager to learn new technologies and gain practical experience in software development and AI/Data Science.

SKILLS

Python Skills: Python Libraries, Basic Data Analysis & Visualization.

Data Structures & Algorithms: Arrays, Strings, Searching, Basic Sorting, Problem Solving

Web Development: HTML5, CSS3, Responsive Design

Development Tools: GitHub, VS Code, MS Word, MS Excel, MS PowerPoint

PROJECTS

[SolarPlanner v2.1](#) - SaaS Energy Prediction Platform | React.js, Tailwind CSS, Firebase (Firestore)

- Built a full-stack SaaS web application for solar energy planning, enabling users to calculate energy generation, cost savings, and payback period based on location, system size, and electricity rates.

[Atmocast](#) | HTML, Tailwind CSS, JavaScript, AWS S3, CloudFront, REST API

- Developed a responsive weather dashboard using HTML, CSS, and JavaScript, displaying real-time weather data through the OpenWeatherMap API.

EXPERIENCE

Front-End Web Developer and UI Designer - [AdsRiddle](#)

- Designed and maintained the website using WordPress (Elementor) and Figma, ensuring consistent UI/UX and usability.

Inventory & Asset Management Intern – Andwintechno Solutions LLP

- Achieved improved accuracy in inventory tracking by organizing and maintaining structured data for 500+ assets using ERP and MIS systems.

EDUCATION

Graduation: 2025 | Bachelor of Computer Applications in AI and DS, Graphic Era Hill University | 86%(1st semester)

Intermediate: 2025 | St. Kabeer Academy (CBSE) | 61.6%

CERTIFICATIONS & LEARNINGS

- **AWS Certified Cloud Practitioner** (CLF-C02) — (Score: 897/1000).
- **AWS Certified AI Practitioner** (AIF-C01) — (Score: 781/1000).

SOFT SKILLS

- Strong logical thinking, quick grasping ability, and problem-solving mindset with eagerness to learn new technologies.
- Social and adaptable personality with good communication skills and ability to adjust easily in new environments and locations.
